Global recognition
Graduate with a highly regarded qualification. Continuously, Monash is identified by more than 4500 leaders from the world’s most successful companies as one of the top universities worldwide from which to hire.

Expertise
Gain from the expertise of our world-class academics and research leaders throughout your studies. These are the people who will guide and supervise your progress.

Professional recognition
Be confident in knowing that what you study at Monash will satisfy the educational requirements of professional registration or membership for entry into regulated professions.

Prestige
The Faculty takes pride in delivering outstanding education in all courses, in opening students to the possibilities offered by newly discovered knowledge, and in providing a nurturing and caring environment. Our rankings reflect this.

We are ranked 35th in the world for our expertise in clinical, preclinical and health sciences (Times Higher Education 2015/16 subject rankings).

Monash University is ranked in the top 50 universities across the globe for health care and medical research, renowned for its commitment to preparing students for ever-changing work places.

^ All students should ensure that the units they take are those required for the profession of their choice. Advice on unit selection is available from course advisers.

Employability
As published in The New York Times, leaders from the world’s most successful companies consistently rate Monash as a preferred university from which to hire graduates.

Top 100
Monash is ranked in the top 100 of world universities.

Good Universities Guide 2015
Research grants Research intensity Staff qualifications Student retention
Choice
Pick from a range of postgraduate courses designed to qualify you for practice, build your expertise, or start your research career.

Connections
Benefit from our extensive global network of campuses, centres and clinical partners. This gives you access to Monash partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa.

Relevance
Undertake your course confident in knowing that as a research-intensive university, our courses are designed using the latest research and industry developments.

Location
Come and enjoy the lifestyle and richness of Melbourne, Australia – the world’s most liveable city* and the home of Monash University.

Scale
The diversity you will experience throughout your studies and in the people you meet comes from joining Australia’s largest university. The Monash network you will belong to is extensive with campuses across four continents and over 60,000 students studying with it in any given year.

* Economist Intelligence Unit, 2011 to 2014.

---

Monash is a five-star plus institution. Receiving five-star ratings in a range of qualities from employability to sport facilities and community engagement. This means we are not just world-class but an elite destination to which the very best students and faculty worldwide aspire.

Monash University is a member of Australia’s Group of Eight universities. The group’s members produce more than 70 per cent of all basic research conducted at all of Australia’s public universities.

Monash University is the only Australian member of the prestigious M8 Alliance of Academic Health Centres, Universities and National Academies. This global grouping includes Johns Hopkins University, the Sorbonne in Paris, Imperial College London and the Charité in Berlin.
Your study options

Whether you want to get ahead in your career faster, or simply just improve your knowledge, a Monash postgraduate degree can give you a distinct advantage.

Professional entry master’s courses
Some postgraduate courses are specifically designed to prepare people who have completed an undergraduate degree to enter a regulated profession. While some of these professions can also be studied at undergraduate level, you might make the decision to enter the professional course after you have completed your first degree.

Expert master’s courses
These courses allow you to either extend knowledge and expertise gained through your undergraduate degree or add breadth to your knowledge and skills within a new or complementary field.

Research
Monash offers research-based postgraduate courses in most disciplines.
These courses offer you the opportunity to pursue your passion in a supportive environment while working with some of the brightest minds. A postgraduate research degree can take between one and four years of full-time study.

Study modes

We understand that postgraduate student’s have many priorities and commitments. That’s why we offer flexible study modes to allow you to build your study around your life.

Most courses are offered in both full-time and part-time study modes. Some units are offered in intensive block mode (usually Thursday to Sunday) allowing you to arrange a short break from work to complete a unit. It’s what works best for you.

Off-campus and multi-modal courses
You may be able to study some off-campus units as part of an on-campus course. A number of courses are structured as a combination of face-to-face, including block days, teaching and on-line educational delivery, to suit working professionals and those who balance other responsibilities in their lives.

Length of programs

Many of our master’s programs offer you block credit on the basis of your education background.

1.5 year programs
if you wish to undertake a master’s program in the same discipline as your three-year undergraduate qualification it will usually be a 1.5 year program (72 credit points).

2 year programs
if you wish to undertake a master’s program in a different discipline to your three-year undergraduate qualification it will usually take two years (96 credit points).
The Faculty of Medicine, Nursing and Health Sciences is the largest research faculty at Monash. World-class researchers work across disciplines including laboratory-based medical science, applied clinical research, and social and public health research.

Our research is aligned with national and international health priorities. Together with our partner organisations, we have research capabilities in the following nine thematic areas:

- Cancer and Blood Diseases
- Cardiovascular Disease
- Critical Care, Trauma and Perioperative Medicine
- Development, Stem Cells and Regenerative Medicine
- Infection, Inflammation and Immunity
- Metabolism, Obesity and Men's Health
- Neurosciences and Mental Health
- Public Health and Health Systems Improvement
- Women's, Children's and Reproductive Health

The Faculty is dedicated to innovation and excellence as we strive to improve health and social equality worldwide through a unique focus on translating discoveries into tangible outcomes.
35

Number 35 in the world
Times Higher Education (2015/16) – Clinical, Preclinical and Health Sciences ranking rates Monash #35 in the world.

In 2014 and 2015, we had a combined research income of over...

$315m

A proud history of breakthroughs: we delivered Australia’s first IVF baby in 1980.

In 2015 we launched
3D printed body parts
revolutionising how human anatomy is taught around the world.
The 3D Printed Anatomy Series is produced in partnership with Enter-Zimmer in Germany.

Campuses and locations

Campuses

Caulfield CA
Drive time from CBD: 9 km, approx. 20 minutes
Caulfield is the second-largest Monash campus, with about 14,000 students. Caulfield adjacent to Caulfield train station. The campus has a gym, library and cafes, and is close to several shopping precincts.

Clayton CL
Drive time from CBD: 20 km, approx. 25 minutes
Clayton is the largest of Monash’s campuses, with about 28,000 students enrolled. It combines a vibrant research, technology and manufacturing precinct with first-rate sporting facilities, shops, a student centre, libraries, a post office, banks, medical services and religious centres. The campus can be reached by public transport utilising an extensive bus network combined with train stations in surrounding suburbs.

Peninsula PE
Drive time from CBD: 40 km, approx. 40 minutes
The Peninsula campus has about 4000 enrolled students. Situated about 40 minutes south of Melbourne, it is a centre for training health professionals and health and physical-education practitioners. It is also being developed as a centre for health-science research. There is a bus connection to Frankston train station, and a free shuttle-bus runs between Peninsula and Clayton campuses.

Clinical Partners

Monash works closely with major affiliated hospitals, research institutes and public health units within Victoria. For example:

Monash Health
Monash Health is Australia’s largest health care provider network and includes Monash Medical Centre, which is located in Clayton in close proximity to Monash University’s Clayton campus.

Alfred Health
Being part of AMREP – the Alfred Medical Research and Education Precinct – reflects the high level of program integration with clinical services at Alfred Health. Monash postgraduate students gain unique education and research opportunities through the School’s location at The Alfred, resulting in enhanced experiences in biomedical and clinical research, education and health care.

Cabrini Health

Eastern Health

Peninsula Health

Notting Hill Satellite Campus
Situated near Clayton Campus, Notting Hill incorporates several departments, centres, units and course streams.

Churchill
Graduate entry MBBS students will complete their first year of study at the School of Rural Health, Churchill in Gippsland with regular visits to the Clayton campus as part of their studies.

All times and distances are approximate and use the most direct driving route from the Melbourne CBD.
Transport to Monash

Monash shuttle-bus
During the academic year, a free Monash shuttle-bus service runs in both directions from:
- Clayton to Berwick
- Clayton to Caulfield
- Clayton to Peninsula
- Frankston Station to Peninsula

After-hours buses
Clayton and Caulfield buses run to designated stops on Monday to Friday evenings from 5.30pm until late. This is a free service for current Monash students.

Public bus
All Australian campuses are accessible by public transport. Public transport timetables and maps can be found at ptv.vic.gov.au

Car
Parking is available at or near all Australian campuses. Monash Rideshare is a carpooling scheme for students and staff travelling to Berwick, Caulfield, Clayton and Peninsula. Carpoolers are eligible parking at a reduced rate.

Bicycle
For details of local bicycle paths and bicycle lanes, refer to the Bicycle Network Victoria website at bicyclenetwork.com.au Designated bicycle parking is provided at all campuses.

For more information visit monash.edu/people/transport-parking
Alumna Lydia Johns-Putra (MBBS (Hons) 1995) moved to Melbourne from Malaysia at 18 to study Medicine at Monash.

The recipient of a Commonwealth Scholarship, she was drawn to study at Monash University due to its reputation in Asia.

Dr Johns-Putra recalls many fond memories about her time at the University, the most prominent of which was meeting her now husband on her first day.

She loved how multi-cultural Monash was and affectionately speaks of the truly valuable friendships she has maintained with former classmates to this day.

After graduating in 1995, Dr Johns-Putra returned to her home country to complete her medical internship. She fondly remembers delivering more babies than she can remember during her time there.

"Malaysian hospitals were not at all like their counterparts in Australia," she said.

"It was a lot more hands on working in the coalface.

"There were a lot more disadvantaged people in Malaysia particularly in the late nineties, on the cusp of the Asian boom."

After a year in Malaysia, Dr Johns-Putra returned to Australia to undertake her surgical residency at the Royal Melbourne Hospital.

In 2007 Dr Johns-Putra went to Oxford University, spending a year and a half completing her qualification. She returned to Australia in 2009, settling with her husband in Victoria.

Dr Johns-Putra's favourite aspect of her role is the opportunity to be a part of a patient's journey.

“When people are unwell it is a life changing time for them, their families and their circle,” she said.

“It is something that changes their lives significantly and to be part of that is a truly humbling and fulfilling experience.”
Dr Thilini Samarasinghe
Sleep Scientist, Box Hill Hospital
In 2005 Thilini completed a Bachelor of Biomedical Sciences degree, and continued to complete an Honours degree in 2006.
Once graduated from the Bachelor of Biomedical Science (Hons), she worked as a research assistant for two years in a group that had a research focus on Sleep Medicine. She then embarked on a PhD with the same group and found part-time employment at Monash Health as a Sleep Scientist.
She is now employed as a full-time Sleep Scientist at the Box Hill Hospital.
“Biomedical Sciences paved the foundation for both my PhD studies as well as my employment as a sleep scientist. I would highly recommend considering embarking on postgraduate studies, finding a job from your undergraduate qualifications is harder these days.”

Dr Sarah Prickett
Peanuts were the last thing on Dr Sara Prickett’s mind when she moved to Australia 10 years ago.
An infectious disease expert, she was looking to do a PhD in malaria, but a combination of circumstances meant she couldn’t apply for funding either here or back home in the UK to continue her work.
To make ends meet, she applied for a job at Monash as a research assistant.
Little did she know that in just a few years, she’d be co-founder of a startup filing an intellectual property claim on a much-sought-after vaccine for dangerous and common peanut allergy.
Scientists at Monash are given the skills and support needed to take discoveries all the way from the laboratory bench to patients’ bedsides or the family medicine cabinet.
Sarah’s startup, Aravax, has been approved for funding to undertake the final pre-clinical phase for the peanut allergy vaccine later this year, with the first clinical trial set for the end of 2016.
“There’s a massive social burden on people with peanut allergy,” says Sarah.
“There are other treatments in the pipeline but ours is the only one that’s safe during delivery.”
The drug could be given to anyone diagnosed with peanut allergy, as well as infants or young children with a certain medical profile known to be predisposed to it.
“Something that I’ve really enjoyed with this area is the fact that it is so translational. Linked with the largest allergy clinic in Australia on-site. You can have direct involvement with the patients and what you’re studying can be applied.”
Monash helps students settle into university life by providing an extensive range of support programs and services.

**Monash helps students settle into university life by providing an extensive range of support programs and services.**

**e-Research Services**

The Monash e-Research Centre provides all Monash researchers with access to outstanding advice and assistance – to help you manage your research projects and data effectively and efficiently. The centre can give you the advice, information and assistance you need to help you identify, specify, develop and configure IT tools, data management systems and practices to meet your specific needs.

[platforms.monash.edu/eresearch](http://platforms.monash.edu/eresearch)

**Skills Essentials seminars**

The Skills Essentials seminar series comprises more than 160 seminars and workshops, specifically designed for postgraduate research students. Most sessions are free of charge and provide postgraduate students with valuable training in areas relating to candidature and skills for future employment.

[mpa.monash.edu/research-postgrads](http://mpa.monash.edu/research-postgrads)

**Academic support**

During their studies, students have access to academic support programs to improve written and oral expression, reading, listening and note-taking skills. Tutors are available to guide advanced students through research methodology, conference presentation and the best way of submitting academic papers.

[monash.edu/counselling/academic-support](http://monash.edu/counselling/academic-support)

**Campus security**

While Melbourne is considered the world’s most livable city, Monash still looks out for students welfare. We provide a range of security services to ensure our students are safe at all times. These include 24-hour security patrols, security escorts and a night-time security bus between our Clayton and Caulfield campuses.

[monash.edu/safety-security](http://monash.edu/safety-security)

**On-campus accommodation**

On-campus accommodation gives you a convenient, safe and enjoyable living environment.

Living close to campus facilities ensures easy access to classes, libraries and university life. It’s also a great way to concentrate on your studies, and you are part of a community of people also committed to their courses. You become a part of the programs, activities and pastoral care we offer.

It is a secure environment created by a 24-hour Monash security presence, and the costs are highly competitive with all rooms fully furnished.

Places fill quickly, so you should apply for accommodation as early as possible at:

[monash.edu/mrs](http://monash.edu/mrs)

**Off-campus accommodation**

Monash Residential Services provides guidance, information, resources and advocacy to students of Monash University.

The service assists with accommodation-related matters prior to arrival and during your entire time at Monash University. We can help every step of the way on:

- how to source appropriate accommodation
- tenancy legal information on what tenants need to know prior to and during their tenancy
- support with any difficulties experienced with landlords, agents or housemates
- other accommodation-related matters.

For more information go to [mrs.monash.edu/offcampus](http://mrs.monash.edu/offcampus)
Bring your family

If you have a visa to study in Australia, family members can accompany you if your study lasts for at least one year and you can support them. See the Australian Government immigration website to check eligibility criteria at: www.border.gov.au/Trav/Stud/Brin

February

FEES p.a.
(DOMESTIC STUDENTS)
$22,400*

FEES p.a.
(INTERNATIONAL STUDENTS)
$25,600*

DURATION
1 year part-time

This course is designed to meet the unique requirements of teachers working in health professions education using simulation as an educational modality. The course enables participants to develop their teaching, curriculum design and program evaluation skills in inter-professional settings and addresses the medical, psychosocial, technical and organisational elements unique to simulation education. Participants will also develop their working knowledge of educational theories as they apply to their simulation education roles. This course articulates to the Master of Health Professional Education (3860) for those wishing to further develop their educational practices.

Course code: 3973

*The fee quoted is an annual fee based on 48 credit points of study. To calculate the correct fee for this degree, please multiply the amount listed by .5.

ENTRY REQUIREMENTS

Applicants must:

1. Have a bachelor’s degree from any health related or education profession or have other qualifications and/or experience that the Faculty deems equivalent, and
2. Be currently engaged, or will become engaged, in teaching or educational development in or of the health related disciplines.

English Requirements for International Students

IELTS score of at least 6.5 with individual band scores required at 6.5 for Reading, 6.5 for Listening, 6.0 for Writing and 6.0 for Speaking.

*This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia, may be eligible for this course.

**DURATION**
0.5 years full-time
1 year part-time

**Credit Points**
24

This course will establish an understanding of the processes involved in developing a basic science finding through to clinical trials. The course modules offer the basic foundations of discipline-specific laboratory research questions and how these can be applied to broader clinical applications. The main focus of the Graduate Certificate in Translational Research is for the student to establish an appreciation that fundamental scientific questions may have multidisciplinary clinical answers. Other core learning outcomes are through understanding how scientific concepts can be marketed and communicated effectively through research pipeline procedures and the responsibilities of the researcher that may be derived from this.

Course code: M4002
CRICOS code: 0853473

*The fee quoted is an annual fee based on 48 credit points of study. To calculate the correct fee for this degree, please multiply the amount listed by .5.

**ENTRY REQUIREMENTS**

Applicants must have completed a bachelor’s degree in a Health Science/Basic Science discipline; or other degree with industry experience in Research and Development (eg. CSIRO, CSL, Biopharmaceutical Industry or in Clinical Trials) that the Faculty considers to be equivalent to or a satisfactory substitute for the above.

**English Requirements for International Students**
IELTS score of 6.5 with no individual band score less than 6.0.

This course offers graduates a major in psychology accredited by the Australian Psychology Accreditation Council (APAC), permitting them to undertake the further training needed to obtain professional qualifications.

This course is offered in a purely online mode, however, will include at least 1 hour of participation in live learning activities per week. Applicants should have completed an undergraduate degree in any discipline. The course structure consists of an APAC-accredited sequence in psychology of nine core units and one elective.

Studies include developmental and biological psychology, research design and analysis, cognitive and social psychology, abnormal psychology, perception and personality, psychological testing, theories of ability and ethics, research methods and theory.

Electives offered may include units covering counselling; addiction studies; human neuropsychology and cognition.

Course code: 4525

*The fee quoted is an annual fee based on 48 credit points of study. This is a part-time degree. The annual fee calculation will be based on the number of units that are undertaken.

### ENTRY REQUIREMENTS

Entry is open to graduates who have completed an undergraduate bachelor’s degree in any discipline or a higher University qualification.

**English Requirements for International Students**

IELTS score of 6.5 overall with no band score less than 6.0.

**This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. This course will increase students’ understanding of theoretical and methodological aspects of research, develop their analytic, research and communication skills, and provide them with advanced knowledge in specific areas of the science and practice of psychology. In this course students must complete learning activities designed to expand their knowledge of statistics and the ethics of psychological research and practice, and broaden their understanding of the discipline. Students also undertake a supervised research project, which provides training in both discipline-specific and generic research skills. The research project forms the basis of a literature review and research paper presented at the end of the course.

The course will be APAC accredited, equivalent to a fourth year of a psychology sequence, providing eligibility to register as a Provisional Psychologist. This course gives students the qualification necessary to undertake further specialised professional postgraduate training in psychology, such as a Clinical Doctorate. This course also offers students eligibility to enter a two year internship program via the Psychology Board of Australia, which culminates in eligibility for general registration as a Psychologist.

Course code: M5003

*The fee quoted is an annual fee based on 48 credit points of study. This is a part-time degree. The annual fee calculation will be based on the number of units that are undertaken.

### ENTRY REQUIREMENTS

Admission to the course requires successful completion of a bachelor’s degree with a major in psychology from any course accredited by the Australian Psychology Accreditation Council (APAC) with at least a distinction (70%) in core third year Psychology units or a Graduate Diploma in Psychology with at least a distinction (70% average) in four core advanced units. These qualifications must have been completed within the last 10 years.

Applicants with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS) www.psychology.org.au.

**English Requirements for International Students**

IELTS score of 6.5 overall with no band score less than 6.0.

**This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia, may be eligible for this course.**
Graduate Diploma in Reproductive Sciences

**LOCATION**
Monash Medical Centre (MMC)

**INTAKE**
February

**DURATION**
1 year full-time
2 years part-time

**FEES p.a.**
- **DOMESTIC STUDENTS**: $20,300
- **INTERNATIONAL STUDENTS**: $34,300

The course provides a broad knowledge and practical training in the applications of reproductive biology to current human clinical and veterinary medicine, and explores social and ethical issues raised by the use of these techniques. The course also provides an opportunity for those interested in expanding or refreshing their understanding of reproduction and development to update their knowledge. On completion of the course, students will be able to demonstrate a thorough theoretical understanding of human and animal reproductive sciences and demonstrate practical techniques currently in use in human medical and veterinary reproductive sciences. Students who pass all units for this course and achieve an overall grade average of distinction (70 per cent) or above may qualify for admission into higher degrees by research (HDR) and the Master of Clinical Embryology.

**Course code**: 0101

**CRICOS code**: 019066D

**ENTRY REQUIREMENTS**
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in nursing or biological, medical, paramedical, agricultural or veterinary sciences, or experience in the reproductive sciences gained after completing a pass degree in another field. (Bachelor should include a major field of study in: anatomy, biology, biochemistry, genetics, pharmacology, physiology, microbiology, immunology or zoology.)

Extra requirements: Curriculum Vitae (CV) and a Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course.

**English Requirements for International Students**
IELTS score of 6.5 with no individual band score less than 6.0.

Master of Addictive Behaviours

**LOCATION**
Online

**INTAKE**
February

**DURATION**
3 years part-time

**FEES p.a.**
- **DOMESTIC STUDENTS**: $22,400
- **INTERNATIONAL STUDENTS**: $37,400

The Master of Addictive Behaviours is offered in partnership with Turning Point, an internationally renowned treatment, research and education centre. The course provides students with a comprehensive overview of addiction science, policy and practice. It is a multidisciplinary, modular postgraduate degree that is delivered online but which retains a strongly interactive and dynamic focus.

Covering key contemporary issues such as problem drinking and gambling, and misuse of prescribed and illicit drugs, the course is delivered by a team of national and international experts from Monash University, Turning Point and other leading universities.

This master’s program is built on a strong conceptual and theoretical foundation and covers key topics in epidemiology, public health and policy, prevention and treatment and research methods.

The course is suitable for graduates in psychology, criminology, nursing, medicine and social work, and for professionals engaged in criminal justice, mental health, community health and public policy. It enables students to enhance their career development, improve their academic skills and gain a rewarding and satisfying educational experience.

**Course code**: 4519

**ENTRY REQUIREMENTS**
Applicants must have:
- A minimum bachelor’s degree (AQF level 7) in a related discipline* AND either:
  - a bachelor’s honours degree (AQF level 8) in a related discipline* OR
  - graduate diploma (Australian Qualification Framework - AQF level 8) in a related discipline* with at least a grade average of 70 per cent in level-four units; OR
  - a bachelor’s degree (AQF level 7) in a related discipline* with at least a grade average of 70 percent in level-three units and at least three years (full-time equivalent) of relevant professional work experience accompanied with high level written skills# health and human resources.

Applicants may be required to participate in an interview.

The following must be provided before an application can be assessed: A curriculum vitae/resume showing relevant industry experience. Academic transcript(s) of relevant degrees; A statement of purpose (500 words) outlining reasons for undertaking the course and your area(s) of interest.

*A related discipline could be in the areas of nursing, social work, medicine and psychology (ie health), research, teaching, law, policy, sport health and human resources.

#Examples of high-level written skills include detailed project reports, evaluation and/or research reports, journal articles, etc.

**The course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia, may be eligible for this course.**
Master of Advanced Health Care Practice

**LOCATION**
Off-campus, Peninsula*

**INTAKE**
February and July

**FEES p.a.**
- **DOMESTIC STUDENTS**: $20,300
- **INTERNATIONAL STUDENTS**: $29,100*

**DURATION**
1 or 1.5 years full-time; 2 or 3 years part-time, depending on prior qualifications. See entry requirements.

The Master of Advanced Health Care Practice provides a pathway for professionals such as medical practitioners, nurses, midwives, occupational therapists, physiotherapists, radiographers, radiation therapists, and primary health care practitioners and managers to gain a master's level qualification that enhances your undergraduate degree – and provides the widest range of options for the future.

This course is interprofessional by nature; all students complete a common module ‘Essentials of advanced health care practice and research’. This reflects the collaboration required in practice to deliver health care of the highest quality.

Upon successful completion of your specialism, you will graduate with one of:
- Master of Advanced Primary Health Care Practice
- Master of Advanced Occupational Therapy Practice
- Master of Advanced Paediatric Physiotherapy Practice
- Master of Advanced Radiography Practice (General Radiography)
- Master of Advanced Radiography Practice (CT Radiography)
- Master of Advanced Radiation Therapy Practice
- Master of Advanced Clinical Midwifery Practice*
- Master of Advanced Critical Care Practice.

Course code: M6001
M60018: CRICOS code: 084615G

*International students please note: Clinical Midwifery is the only specialisation that is on campus. The other specialisations are delivered online.

**ENTRY REQUIREMENTS**

Entry level 1:
- Duration: 1.5 years full-time, 3 years part-time (72 points to complete)

An Australian bachelor's degree in a cognate discipline (or equivalent qualification from a recognised tertiary institution) with a 60% credit average; AND Registration with Australian Health Practitioner Regulation Agency (AHPPA) or equivalent accredited Professional Registration Body; AND a minimum of two years equivalent full time experience in the cognate discipline and evidence of current engagement in Clinical Practice in area of specialisation.

Entry level 2:
- Duration: 1 year full-time, 2 years part-time (48 points)

A four year Australian Bachelor Degree in the cognate discipline (or equivalent qualification from a recognised tertiary institution) with a 60% credit average OR a three year Australian Bachelor degree and a Graduate Diploma or Masters qualifying Degree in a cognate discipline, with a 60% credit average in both disciplines. AND registration with Australian Health Practitioner Regulation Agency (AHPPA) or equivalent accredited Professional Registration Body. AND a minimum of two years equivalent full time experience in the cognate discipline and evidence of current engagement in Clinical Practice in area of specialisation.

English Requirements for International Students
- IELTS score of 6.5 with no individual band score less than 6.0.

Master of Advanced Nursing

**LOCATION**
Clayton and Peninsula
- On campus, Multi modal
- Off-campus, Multi modal

**INTAKE**
February and July

**FEES p.a.**
- **DOMESTIC STUDENTS**: $20,300
- **INTERNATIONAL STUDENTS**: $29,100*

**DURATION**
1 or 1.5 years full-time; 2 or 3 years part-time, depending on prior qualifications. See entry requirements.

This course will prepare you to be a leader in your chosen nursing context, whether that be clinical practice, education, management or research. The course will provide you with the skills to plan, implement, coordinate and evaluate health care, as well as formulate policy for a diverse and multicultural society. You will be well equipped to contribute to the health of individuals, families, communities and the development of the profession on completion of this course. You can study by all coursework or combine coursework and a minor thesis. The all-coursework options may include a choice of a specialist or generic study pathways.

**SPECIALISATIONS**

Available to international and domestic students:
- General studies in advanced nursing (Clayton and Peninsula)
- Nursing leadership and management (Clayton) (2nd semester intake for F/T study)
- Nurse education (Peninsula) (1st semester intake for F/T study)
- Available to domestic students only:
  - Emergency nursing (Peninsula)
  - Intensive care nursing (Clayton)
  - Mental health nursing (Peninsula)

These three pathways prepare nurses for specialist clinical practice. Students must have concurrent employment in the relevant clinical area and support from their employer to undertake the course.

- Nurse practitioner (Clayton) Available for part-time study only

This specialist pathway satisfies the educational requirements for endorsement as a Nurse Practitioner by the Nursing and Midwifery Board of Australia under Pathway 1.

You can also exit the course early with a Graduate Certificate in Advanced Nursing or a Graduate Diploma in Advanced Nursing Management if you meet the requirements.

Course Code M6006 CRICOS 089233C

**ENTRY REQUIREMENTS**

Entry level 1:
- 72 points to complete – Duration: 1.5 years full-time, 3 years part-time

An Australian undergraduate Nursing degree (or equivalent) with at least 60% average, or qualification/ experience or satisfactory substitute that the Faculty considers to be equivalent.

Entry level 3:
- 48 points to complete – Duration: 1.0 years full-time, 2 years part-time

An Australian undergraduate Nursing honours degree (or equivalent) with at least 60% average, or qualification/ experience or satisfactory substitute that the Faculty considers to be equivalent.

**English Requirements for International Students**
- IELTS score of 6.5 with no individual band score less than 6.5.

There are additional entry requirements to apply to the Master of Advanced Nursing (Nurse Practitioner) specialisation. Please see the website: Study.monash.edu
Master of Biomedical and Health Science

**LOCATION**
Clayton

**INTAKE**
July

**FEES p.a.**
(DOMESTIC STUDENTS) $24,900
(INTERNATIONAL STUDENTS) $36,000

**DURATION**
1. 1.5, 2 years full-time, depending on prior qualifications. See entry requirements.

The Master of Biomedical and Health Science is a coursework degree to be undertaken in key research areas in the Biomedical and Psychological Sciences in the Faculty of Medicine, Nursing and Health Sciences.

**Specialisations available:**
- Infectious diseases and population health
- Neuroscience
- Regenerative medicine and stem cells
- Cardiovascular diseases

Candidates undertake an initial year of intensive training in how to conduct research, by studying coursework units in pedagogical and research skills training and engaging in specialist research in theory units (Volumes 1 and 3), followed by a second year of a full-time research project (Volume 2) under the direct supervision of a member of the academic staff of Monash University.

Course code: M6003
CRICOS code: 085118E

---

Master of Biostatistics

**LOCATION**
Alfred Hospital
Multi-modal

**INTAKE**
February and July

**FEES p.a.**
(DOMESTIC STUDENTS) $24,000

**DURATION**
3 years part-time

This course provides a sound understanding of the theory and application of biostatistics relevant to professional practice. Students acquire skills and experience in complex statistical analyses, identifying and implementing appropriate statistical methodology, communicating biostatistical results and understanding biostatistical literature. The course develops the technical skills for commencement in a professional career as a biostatistician. The course comprises 10 – 11 core units and 1 to 2 elective units.

The Biostatistics coursework programs of the School of Public Health and Preventive Medicine are part of a national consortium of universities known as the Biostatistics Collaboration of Australia. The units studied in the various degree programs are delivered in off-campus mode (distance education) by staff of Monash University and of other universities in the Collaboration. Details of how the Collaboration operates are provided at bca.edu.au/howthecaworksnutshell.html

If you need to exit the program early, you can graduate with a graduate certificate after one year or a graduate diploma after two years of successful study.

Course code: 3422

---

**ENTRY REQUIREMENTS**

**Entry level 1:** 96 points to complete – Duration: 2 years full-time

An Australian undergraduate degree (or equivalent) in Biomedical Science or Science with at least 60% average, or qualification/experience or satisfactory substitute that the Faculty considers to be equivalent.

**Entry level 2:** 72 points to complete – Duration: 1.5 years full-time

An Australian undergraduate degree (or equivalent) in a cognate discipline including Biomedical Science or Science with at least 70% average, or qualification/ experience or satisfactory substitute that the Faculty considers to be equivalent.

**Entry level 3:** 72 points to complete – Duration: 1.5 years full-time

An Australian undergraduate honours degree (or equivalent) with at least 60% average, or qualification/ experience or satisfactory substitute that the Faculty considers to be equivalent and a certificate or diploma in a cognate area of Biomedical Science or Science.

**Entry level 4:** 48 points to complete – Duration: 1 year full-time

An Australian undergraduate honours degree (or equivalent) with at least 70% average in a cognate area of Biomedical Science or Science, or qualification/ experience or satisfactory substitute that the Faculty considers to be equivalent.

**Entry level 4:** 48 points to complete – Duration: 1 year full-time

An Australian undergraduate honours degree (or equivalent) with at least 70% average in a cognate area of Biomedical Science or Science, or qualification/experience or satisfactory substitute that the Faculty considers to be equivalent.

**English Requirements for International Students**

IELTS score of 6.5 with no individual band score less than 6.0.
Master of Clinical Embryology

LOCATION
MMC
(Off-campus study available)

INTAKE
February

FEES p.a.
(DOMESTIC STUDENTS)
$25,800*

FEES p.a.
(INTERNATIONAL STUDENTS)
$37,400*

DURATION
1 year full-time, 2 years part-time

This 12-month, intensive course provides students with the essential postgraduate knowledge and practical skills necessary to contribute competently to human infertility clinical services. Theoretical and practical skills are presented in the broad context of the regulations and the ethical considerations that apply to human IVF, both nationally and internationally, along with the quality control procedures required to ensure maximum success for IVF patients. The guidelines, protocols and regulations that steer and control human infertility services are also presented. In addition to attending lectures and self-directed study, students are required to undertake continual practical skills training and also students will undertake a minor research project. Students will not only be equipped with practical skills required for work in an IVF laboratory but also gain a greater understanding of research applications within the field of reproductive or developmental biology. Research-related tasks contribute to the overall assessment for specific coursework units.

Course code: 2309
CRICOS code: 028955G

*The fee quoted is an annual fee based on 48 credit points of study. This is an intensive degree combining 3 semesters (1.5 years) of study into 12 months (72 credit points). To calculate the correct fee for this degree, please multiply the fee quoted by 1.5.

ENTRY REQUIREMENTS
Applicants must have one of the following:

- An Australian undergraduate degree (or equivalent) in a cognate discipline including medical degree, veterinary science degree, science degree (with honours—second class or above); or
- A science degree (without honours) and at least one year equivalent professional experience in embryology or reproductive biology; or
- An Australian undergraduate degree (or equivalent) and a Graduate Diploma in Reproductive Science from Monash University with at least 70%; or
- An Australian undergraduate degree (or equivalent) and a Graduate Diploma from another institution deemed by the Faculty of Medicine, Nursing and Health Sciences as equivalent to the Monash University Graduate Diploma of Reproductive Sciences with at least 70%;

All applications are assessed on academic merit and relevant experience. Extra requirements: Curriculum Vitae (CV), work reference letters and a Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course.

English Requirements for International Students
IELTS score of 6.5 with no individual band score less than 6.0.

Master of Clinical Research Methods

LOCATION
Alfred Hospital
(Off-campus study + block days)

INTAKE
February

FEES p.a.
(DOMESTIC STUDENTS)
$22,400

FEES p.a.
(INTERNATIONAL STUDENTS)
$33,000

DURATION
1.5 years full-time, 3 years part-time

Clinical epidemiology attempts to answer questions relevant to the daily practice of medicine and other health sciences and to improve patient care. This course assists health professionals to make rational evidence-based decisions in clinical practice and undertake small clinical research projects. It focuses on individuals or groups of patients in clinical settings. Above all, graduates should be able to critically evaluate their own efforts and the efforts of others towards the achievement of better health outcomes.

Students may exit from the course with the Graduate Diploma in Clinical Research Methods or the Graduate Certificate in Clinical Research Methods. Students who successfully complete the research stream and achieve an overall average of High Distinction may apply to progress to a PhD or other Higher Degree by Research.

Course code: 2311
CRICOS code: 072000D

ENTRY REQUIREMENTS
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in an appropriate discipline and relevant professional experience.

Extra requirements: Curriculum Vitae (CV), work reference letters and a Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course.

English Requirements for International Students
IELTS score of 6.5 with no individual band score less than 6.0.
Master of Dietetics

LOCATION: Clayton

INTAKE: July*

FEES p.a.:
- DOMESTIC STUDENTS: $25,800
- INTERNATIONAL STUDENTS: $39,600

DURATION: 1.5 or 2 years full-time, depending on prior qualifications. See entry requirements.

This postgraduate course aims to prepare graduates with the professional and personal qualities required for future dietetic practice in a variety of workplace settings. The course integrates academic teaching and learning with clinical, population health, food service, research and management experience, and is undertaken in both academic and professional practice placement settings (e.g., clinical, food service, community nutrition and public health nutrition). Professional practice placements may be in an urban or rural setting.

Course code: M6002
CRICOS code: 084910M

ENTRY REQUIREMENTS

An undergraduate bachelor degree where 50% of each of the first and second years must be composed of bioscience, chemistry, physiology and biochemistry (equivalent to an Australian undergraduate degree) with at least credit (60%) average. It is expected that your Bachelor degree has been completed in the past 10 years unless you have been assessed as having work experience that Faculty considers equivalent to having studied a Bachelor degree in the past 10 years.

Academic subject prerequisites of at least two 2nd year level units of both biochemistry and physiology (total of 50% 2nd year subject load to meet DAA accreditation requirements), one subject of principles of nutrition science, and one research focussed subject covering statistics and research methods. A second food/nutrition subject at any level is desirable (e.g. food science, nutrition science, lifespan nutrition). Applicants are required to submit a supplementary information form and applicants may be required to attend for extra assessment.

Students must satisfy the immunisation requirements in order to participate in placements that are compulsory course requirements. It is the student’s responsibility to have a satisfactory immunisation status by the end of the First Semester (March) of the Master of Dietetics course. Students will also be asked to obtain a National Police Certificate (annual requirement) and a Working with Children Check on enrolment in the program.

English Requirements for International Students

IELTS score of 7.0 with no individual band score less than 6.5.

*This course is not available for First Semester (February) entry unless you have completed the Monash University Bachelor of Nutrition Science degree with the required subjects or an equivalent nutrition science degree where credit may be given for units completed that are equivalent to the first semester units of the Masters program.

Master of Emergency Health

LOCATION: Alfred Hospital (On-campus study available)

INTAKE: February and October (Summer)

FEES p.a.:
- DOMESTIC STUDENTS: $20,300
- INTERNATIONAL STUDENTS: $27,400**

DURATION: 1.5 years full-time, 3 years part-time

This course is designed for emergency health practitioners interested in improving their clinical knowledge and aspiring to leadership positions in their field of practice.

You will have the opportunity to examine emergency health care from clinical and systems perspectives using local and international contexts. In the last year of the course you will study clinical research in emergency health and have the option of undertaking a clinical project or studying clinical improvement, education or leadership to develop the professional attributes and skills required to practise at an advanced level.

You will learn from experienced practitioners, researchers and educators who have been delivering Ambulance Victoria’s education programs for over 15 years, and who take their role as educators of the next generation of emergency health services leaders, managers and researchers seriously.

You’ll gain the skills to evaluate and apply effective clinical and management practices, while opening the door to a career as an emergency health provider, educator or researcher.

If you need to exit the program early, you can graduate with a graduate certificate after one year or a graduate diploma after two years of successful study.

Course code: 3878

ENTRY REQUIREMENTS

Applicants are required to have completed a bachelor’s degree in emergency health, or equivalent undergraduate studies leading to practice as a health professional. In addition, applicants wishing to undertake clinical practicum units will need to demonstrate current relevant health professional registration (or equivalent), and appropriate sponsored support (to be approved by the Course Coordinator). Interstate applicants with an equivalent qualification may apply for entry. Such applicants will be assessed on a case-by-case basis with reference to university credit/Recognition of Prior Learning guidelines.

http://www.med.monash.edu.au/policies/credit.html

**This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia, may be eligible for this course.

The Master of Forensic Medicine provides a pathway for medical and dental professionals to gain a masters level qualification that will enhance options for practice in the future. Clinical forensic medicine and forensic odontology act at the interface between medical/dental practice and the law. Both areas of practice are increasingly becoming specialised disciplines in their own right. The need for more formal training in clinical forensic medicine and forensic odontology has been recognised by justice organisations for some years. This course is designed to further develop medical and dental practitioners knowledge and skills so that they are able to provide a high quality clinical forensic medical and dental service. Material covered will include ethical and legal issues arising in forensic practice, the skills required to interpret injury patterns, identify unknown human remains, knowledge of general forensic science methods, and communication with the justice system.

Students may be eligible to take an alternative exit from the program with a Graduate Diploma or Graduate Certificate in Forensic Medicine, provided the requirements of the alternative exit have been met.

The course aims to provide the academic preparation for managers in health care and public health and those that aspire to such a career. This includes managers in the broad range of health care organisations from central agencies, health insurers, non-government organisations and the various health provider organisations. It involves structured learning in the key management disciplines including policy, organisational theory, financial management, human resources management, economics and marketing, with an emphasis on health care organisations and specific health-focused domains such as epidemiology, biostatistics and managing the patient care process. The course adopts an adult learning approach, encouraging self-directed learning, independent research and enquiry, reflection from practice, and peer learning with guidance from experienced academics in their respective fields.

Course code: M6007

<table>
<thead>
<tr>
<th>ENTRY REQUIREMENTS</th>

This course provides participants with the skills necessary to design, implement and evaluate major public health programs in low and middle income countries. This program is offered in collaboration with the Michael Kirby Centre for Public Health, SPHPM, and the Centre for International Health at the Burnet Institute for Medical Research and Public Health. The course covers the most up-to-date global evidence and policy, and draws on field experiences from health development and research projects in countries throughout Asia, the Pacific and Africa.

Students learn about the theory and practice of public health in resource-limited settings, including relationships between health and human rights, ethics, law, research and development. Public health issues are presented in the broader context of economic and social development, stressing cultural, political, gender and environmental influences, and the impact of armed conflict and population migration. Students may be eligible to exit from the master’s with the Graduate Diploma in International Health.

Course code: 3874  
CRICOS code: 054588J

**ENTRY REQUIREMENTS**

Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience.

**Extra requirements:** Relevant Work Experience (CV), Statement of purpose (250 words) outlining reasons for undertaking course, and Academic transcripts must be provided before an application can be assessed.

**English Requirements for International Students**

IELTS score of 6.5 with no individual band score less than 6.0.

This course is designed for appropriately qualified individuals wishing to become accredited Sonographers. After completion of the first two units of the course (SON4000 and SON4010), students must be engaged in supervised clinical ultrasound training practice for a minimum of 3 days per week (or equivalent). Monash University cannot assist students in gaining supervised clinical training placements. Students can exit the course after 48 credit points (minimum 2 years of study) with a Graduate Diploma in Ultrasound which meets the qualification requirement for accreditation as a Sonographer. The final year of the course focuses on developing research skills via an ultrasound research project. This course is fully supported by nationally recognised academics, sonographers and researchers.

Course Code: M6005

**ENTRY REQUIREMENTS**

An Australian undergraduate degree in radiography and medical imaging (or equivalent) with at least credit (60%) average, or qualifications/experience in a related discipline such as medicine, nursing, biomedical sciences, radiation therapy, nuclear medicine or other health sciences that the Faculty considers to be equivalent.

**Extra requirements:** applicants will generally be graduates of a degree program in Radiography and Medical Imaging or equivalent. Applicants holding degrees in related disciplines (such as Medicine, Nursing, Biomedical Sciences, Radiation Therapy, Nuclear Medicine or other Health Sciences) will be assessed by the admissions teams on a case-by-case basis.

**NOTE:** The University does not accept any responsibility for finding clinical placements.

**English Requirements for International Students**

IELTS score of 7.0 with no individual band score less than 7.0.

*This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However, holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia, may be eligible for this course.
Master of Medicine

LOCATION
Alfred Hospital
Multi-modal

INTAKE
February

FEES p.a.
(DOMESTIC STUDENTS)
$22,400

DURATION
1.5 years full-time, 3 years part-time

Many clinicians caring for surgical patients are challenged by the growing complexity of older and sicker patients, particularly their perioperative management. Pre-admission clinics are responding, and perioperative medicine is becoming an emerging field. This master’s course will address deficiencies in this area. This course will be conducted by the Department of Anaesthesia and Perioperative Medicine and the Department of Epidemiology and Preventive Medicine, in conjunction with the Alfred Hospital’s Department of Anaesthesia and Perioperative Medicine (Director Prof Paul Myles).

This course is designed to meet the needs of registered medical and health practitioners by equipping its candidates to work competently and effectively in the ever-changing medical environment.

Course code: 3896

ENTRY REQUIREMENTS

MBBS or equivalent basic medical degree recognised by the Medical Board of Australia

Master of Mental Health Science

LOCATION
Off-campus only

INTAKE
February

FEES p.a.
(DOMESTIC STUDENTS)
$20,300*

DURATION
3 years part-time

The Master of Mental Health Science will provide you with advanced training and knowledge up-skilling in the disciplines dealing with mental health issues in community and closed environments. The Master of Mental Health Science is available by coursework or minor thesis and provides the opportunity to exit the course at a Graduate Certificate or Graduate Diploma level as long as requirements for that alternative exit have been met.

The program offers specialisations in Community Mental Health and Child Psychotherapy.

Course code: 4508

ENTRY REQUIREMENTS

A bachelor’s degree in a relevant field and a minimum of one year of relevant work experience via submission of a comprehensive CV, or employed in a Mental health Clinical role or currently enrolling in a graduate supervised year in Mental health.

Relevant fields in the Health Profession are: Medicine, General and Mental Health Nursing, Occupational Therapy, Public Health, Social Work, Psychology and other bachelor degrees approved by the Faculty.

Extra requirements: To undertake the Child Psychotherapy Stream applicants need work experience as follows:

- Minimum of 1 year experience in the health industry (Government, policy, provider (e.g. hospital, clinic), Non Government Organisation (NGO), academic institution, consulting, pharmaceutical company, etc.) with at least an entry-level leadership or management role. OR
- Minimum of 1 year experience as a clinician in a healthcare organisation OR
- Minimum of 1 year hospital experience in a clinical role as a Medical Practitioner. OR
- Minimum of 1 year experience as a health professional in industries other than the healthcare industry.
Master of Nursing Practice

**LOCATION**
Clayton

**INTAKE**
February and July

**FEES p.a.**
(DOMESTIC STUDENTS)
Full fee: $22,400

(DOMESTIC STUDENTS)
$36,000

**DURATION**
2 years full-time

The Master of Nursing Practice will provide a professional nursing qualification for individuals who have gained an Australian bachelor’s degree (or equivalent) from a recognised university. This program builds on prior knowledge and skills and facilitates the development of professional nursing practice through engagement with expert clinical nurses, contemporary nursing theory and evidence.

On enrolment, a medical certificate specifying the student’s current health and immunisation status is required.

Students will also be asked to obtain a National Police Certificate (annual requirement) and a Working With Children Check on enrolment in the program.

Course code: 3966
CRICOS code: 068373J

**ENTRY REQUIREMENTS**

An Australian bachelor’s degree (or equivalent) in any discipline, (excluding a Bachelor of Nursing qualification obtained in Australia). In addition, applicants will need to demonstrate evidence of previous tertiary level study of a minimum of one six-credit-point unit in human biology (or a related area) from any recognised tertiary institution or the Monash Human Biology short course which has been assessed as equivalent to this requirement.

Extra requirements: Curriculum Vitae (CV) and a Statement of Purpose (250 words) outlining the reason why you would like to complete the course.

**English Requirements for International Students**

IELTS score of at least 6.5 with individual band scores required at 6.5 for Reading, 6.5 for Listening, 6.5 for Writing and 7.0 for Speaking.

---

Master of Occupational and Environmental Health

**LOCATION**
Alfred Hospital
Multi-modal

**INTAKE**
February and July
International students can only start in February

**FEES p.a.**
(DOMESTIC STUDENTS)
$24,000

(INTERNATIONAL STUDENTS)
$33,000

**DURATION**
1.5 years full-time, 3 years part-time

This course provides you with the skills necessary to evaluate health problems in communities associated with industrial activities, and control related hazards and risks. It is suitable for medical practitioners, nurses, allied health personnel, scientists and occupational health and safety managers. It comprises ten core units and two electives. Core units cover OHS, epidemiology, biostatistics, chemical and biological hazards, workplace hazard assessment and control, ergonomic and physical hazards, the psychosocial work environment, environmental influences on health, safety management systems and research methods.

You may be eligible to exit from the master’s course with the Graduate Certificate in Occupational Health or the Graduate Diploma in Occupational and Environmental Health if you meet requirements.

The graduate diploma and the master’s degree are accredited by the Australian OHS Education Board and are recognised by the Australasian Faculty of Occupational and Environmental Medicine training curriculum (AFOEM). Royal Australian College of General Practitioner’s (RACGP) points can be applied for annually.

Course code: 2312
CRICOS code: 028957E

**ENTRY REQUIREMENTS**

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in an appropriate discipline and relevant professional experience.

Extra requirements: Curriculum Vitae (CV), work reference letters and a Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course.

**English Requirements for International Students**

IELTS score of 6.5 with no individual band score less than 6.0.
Master of Occupational Therapy Practice

**LOCATION**
Peninsula

**INTAKE**
July
This course runs on a term rather than semester basis and commences in early July, prior to the official commencement of the University’s second Semester in July.

**FEES p.a.**

| (DOMESTIC STUDENTS) | $22,400 |
| (INTERNATIONAL STUDENTS) | $39,600 |

**DURATION**
2 years full-time

This two-year, accelerated learning program will enable students with a first degree other than Occupational Therapy, but in a related field, to obtain a professional entry-level qualification to practise as an Occupational Therapist. It requires full-time enrolment over two years from July to May (mid-year intake) and operates over 72 weeks. This includes 1000 hours of fieldwork education commensurate with World Federation of Occupational Therapists (WFOT) minimum Standards for the Education of Occupational Therapists (2002).

The course is an integrated curriculum centred on Scenario-Based Learning (SBL). The two years of the SBL curriculum will be organised into the following units: Foundations of Occupational Therapy, Humans as Occupational Beings, Occupational Performance, Enabling Change in Human Occupation, Transition to Practice and Advanced Professional Practice. You will also complete an extensive practice based project.

Course code: 4515
CRICOS code: 079265M

**ENTRY REQUIREMENTS**
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in health, education, social, physical or biological sciences (or subsequent postgraduate studies and/or relevant work experience) with at least 65% credit average in the most recently completed qualification.

Extra requirements: Curriculum Vitae (CV), Confidential referees, a Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course. A statement about your knowledge of the work of Occupational Therapists. Short listed applicants may be required to attend a Skype interview.

English Requirements for International Students
IELTS score of 6.5 with no individual band score less than 6.0.

Master of Public Health (0046)

**LOCATION**
Alfred Hospital
On Campus; Multi modal

**INTAKE**
February and July
International students can only start in February.

**FEES p.a.**

| (DOMESTIC STUDENTS) | Full fee: $24,000 |
| (INTERNATIONAL STUDENTS) | $33,000 |

**DURATION**
1.5 years full-time, 3 years part-time

This course provides students with the full range of quantitative, analytical and communication skills necessary to work in the broad domain of public health. It also provides skills in the quantitative methods of the population based health sciences and their problem-solving application for primary care provision within Australia and low and middle income countries.

This Master of Public Health course offers a greater number of units for students to self-tailor a stream to meet their specialist needs. Health specialisation streams are offered in clinical research methods, health economics, disease prevention and health promotion, health services management, international health, occupational and environmental health, and research. Study units are offered in flexible delivery mode, e.g. on-campus, off-campus, block mode, or online.

Course code: 0046
CRICOS code: 021280B

**ENTRY REQUIREMENTS**
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in an appropriate discipline and relevant professional experience.

Extra requirements: Curriculum Vitae (CV), work reference letters and a Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course.

English Requirements for International Students
IELTS score of 6.5 with no individual band score less than 6.0.

**DURATION**  
2 years full-time

The Master of Radiation Therapy is designed for those with a degree in science or a related health discipline wishing to become a registered Radiation Therapist.

You will gain knowledge and understanding of the scientific concepts and principles underpinning medical radiations science practice including optimisation of equipment, quality assurance and the biological consequences of ionising and non-ionising medical radiations.

This is the only distance learning graduate entry radiation therapy program offered in Australia and it may be available if you are interstate and want to study in your home state.

On enrolment, a medical certificate specifying the student’s current health and immunisation status is required.

Students will also be asked to obtain a National Police Certificate (annual requirement) and a Working With Children Check on enrolment in the program.

Course Code: M6004

#### ENTRY REQUIREMENTS

An Australian undergraduate degree (or equivalent) in science or health science including study of human anatomy and physiology with at least credit (60%) average, or qualification/experience or satisfactory substitute that the Faculty considers to be equivalent. Applicants must also have passed Year 12 Physics or at a higher level, or equivalent bridging course. Details of equivalent bridging courses in physics and anatomy and physiology can be obtained from radiation.sciences@monash.edu

Extra requirements: applicants should refer to the website for further information about extra requirements: study.monash

**English Requirements for International Students**  
IELTS score of 7.0 with no individual band score less than 7.0.

*This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia may be eligible for this course.
Master of Social Work

LOCATION
Off-campus only

INTAKE
February and July
International students can only start in February

FEES p.a.
(DOMESTIC STUDENTS)
$20,300

FEES p.a.
(INTERNATIONAL STUDENTS)
$25,600**

DURATION
1 year full-time, 2 years part-time

This course enables qualified social workers to develop their professional skills and knowledge and to make links between practice in the field and academic theory.

It is particularly suitable for social workers in roles that involve policy, supervision, research and direct practice with clients. The variety of available units enables students to develop and pursue their own field of study and to integrate their study with their practice. A research stream of two units (Social Work Research and Special Research Study) may provide a pathway into PhD study for interested students.

Units offered include Advances in Direct Social Work Practice; Criminology and Social Work; Social Work Research; The Child in Society; Promoting Children’s Wellbeing And Responding To Child Maltreatment; Health and Social Work; Mental Health Practice; Clinical Supervision - Becoming a Professional Developer; and Gender, Climate Change and Social Sustainability.

Course code: 0019

ENTRY REQUIREMENTS

For entry to this course, students must have a Bachelor of Social Work, or other equivalent, relevant degree, with a credit average which enables them to be eligible for membership of the Australian Association of Social Workers or the equivalent professional organisation in the country where they completed this qualification.

English Requirements for International Students
IELTS score of at least 6.5 with individual band scores required at 6.5 for Reading, 6.5 for Listening, 6.0 for Writing and 6.0 for Speaking.

**This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning and living outside of Australia, may be eligible for this course.

Master of Social Work (Qualifying)

LOCATION
Caulfield

INTAKE
February

FEES p.a.
(DOMESTIC STUDENTS)
CSP: See page 41*
Full fee: $20,300

FEES p.a.
(INTERNATIONAL STUDENTS)
$25,600

DURATION
2 years full-time, 4 years part-time

The MSW (Qualifying) curriculum meets the Australian Association of Social Workers (AASW) requirements and builds on Monash Social Work areas of strength, especially in gender studies, sustainability, child wellbeing and health. The degree includes considerable emphasis on community engagement and leadership, and provides opportunities to work with organisations to complete projects and research. The MSW (Qualifying) is a coursework degree with theoretical, skills development and supervised professional practice units. The course provides opportunities for group-based research and integration of theory and practice. Theoretical content builds on knowledge acquired by graduates in previous higher education, while social work skills components and professional practice units introduce students to contemporary social work practice.

Students will also be asked to obtain a National Police Certificate (annual requirement) and a Working With Children Check on enrolment in the program.

Course code: 3969

ENTRY REQUIREMENTS

For entry to this course, students must have a Bachelor of Social Work, or other equivalent, relevant degree, with a credit average which enables them to be eligible for membership of the Australian Association of Social Workers or the equivalent professional organisation in the country where they completed this qualification.

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a credit average, including two full semester units in the study of society (as required by the Australian Association of Social Workers). Units fulfilling the prerequisite studies of society are broadly assessed and include, for example, studies in sociology, social science, social psychology, human development, anthropology, philosophy, history, gender, law, politics, media, the arts, technology, and multicultural society. Past academic standing is also a significant factor in selection. Students are selected on academic merit and the completion of two broad studies of society.

English Requirements for International Students
IELTS score of at least 6.5 with individual band scores required at 6.5 for Reading, 6.5 for Listening, 6.0 for Writing and 6.0 for Speaking.
Master of Biomedical Science

**Master of Biomedical Science Preliminary**

- **LOCATION**: Various  
  (see website for details)
- **INTAKE**: February and July
- **FEES p.a.**
  - **(DOMESTIC STUDENTS)**: $31,000
  - **(INTERNATIONAL STUDENTS)**: $39,900
- **DURATION**
  - 1 year full-time, 2 years part-time

The Master of Biomedical Science Preliminary (MBiomedSciPreliminary) is designed for students interested in undertaking postgraduate research in biomedical sciences. A candidate is required to carry out a prescribed program of research for a specified period under the direct supervision of a member of the academic staff. The supervisor, in consultation with the candidate, is responsible for developing the research program to be followed by the candidate, and for reporting at regular intervals on the candidates progress. It is designed for students who do not have the equivalent of a class 1 or class 2A honours degree in a relevant discipline. For graduates with only a bachelor’s degree in a relevant field and who have not attempted honours in that field, admission to MBiomedSci preliminary will normally require at least a credit grade average in 24 points of relevant third-year units, or appropriate additional training and experience. International candidates must complete the MBiomedSci preliminary program and obtain results equivalent to class 2A honours (H2A) or better for admission into MBiomedSci. The MBiomedSci preliminary is not an awardable degree. Candidates should complete their program of study within 12 months full-time. Students who pass MBiomedSci preliminary but who do not wish to continue, or do not achieve class 2A honours or above, will be offered the exit award of the Postgraduate Diploma in Biomedical Sciences.

Candidates will be required to undertake a major research thesis of 75% of the entire course. The thesis should embody the results of the candidates investigation, which demonstrates independence of thought and the candidates ability to carry out research in that discipline. The remaining 25% of the course will comprise coursework such as a literature review and/or statistics classes, and is specified by the enrolling department.

Course code: 2970  
CRICOS code: 081809K

**ENTRY REQUIREMENTS**

Applicants must have qualified for a pass degree in a relevant field at a standard deemed appropriate by the faculty executive and not have failed an honours attempt in the degree, or training and experience deemed a satisfactory substitute by the faculty executive. Admission to the course requires at least a credit grade average (60 per cent plus) in 24 points (or half the year) of relevant third year units.

English Requirements for International Students

IELTS score of 6.5 with no individual band score less than 6.0.

$39,900

DURATION
4 years full-time, 8 years part-time

The Doctor of Psychology in Clinical Neuropsychology (DPsych) is a research degree. Throughout the course, you will conduct a major, supervised, research program, complete three years of intensive coursework, and undertake 1515 hours of clinical placements. You will graduate as an effective researcher, able to review research literature, apply research techniques to your field of study and produce high-quality written work for publication.

The discipline of clinical neuropsychology applies knowledge of cognition, emotion and behaviour to the assessment and treatment of children and adults with conditions affecting the brain.

A feature of the Doctor of Psychology (DPsych) in Clinical Neuropsychology course is that training in clinical neuropsychology is extended through specialisation in a choice of areas, including rehabilitation, child and adolescent neuropsychology, geriatric neuropsychology and psychiatric neuropsychology.

This degree is accredited by the Australian Psychology Accreditation Council. On completion, you can apply for membership of the Australian Psychological Society and full registration as a psychologist.

Course code: 2932
CRICOS code: 040812K

ENTRY REQUIREMENTS

Applicants must have a bachelor’s degree with honours 1 or honours 2A in psychology from Monash University, or have qualifications which, in the opinion of the Research Graduate School Committee, are equivalent or a satisfactory substitute. The bachelor’s degree must be accredited by the Australian Psychology Accreditation Council. In addition to their academic record, applicants will be selected on the basis of their personal suitability for clinical psychology, with factors such as referees’ reports and presentation at a selection interview considered.

English Requirements for International Students
IELTS score 6.5 with no individual band score less than 6.0
Entry Requirements for coursework degrees

Academic and additional entry requirements

To view international postgraduate academic and additional entry requirements refer to the Monash Find a Course at:
study.monash/courses/find-a-course

English entry requirements

All students who apply for a Monash University course must satisfy English entry requirements. Different English entry levels apply to Monash courses. If a student has completed several measures of English proficiency over a period of time, only the most recent demonstration of English is considered. For more information regarding English entry requirements refer to the Admission to Coursework Courses and Units of Study Procedures available at:
policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements. English is the language of instruction.

Postgraduate coursework applicants can meet the English language requirement if they have undertaken the following studies at an institution where English is the language of instruction, communication and assessment for the entire institution by satisfactorily completing:

- the equivalent of one standard full-time year (48 Monash credit points) of postgraduate study which must be taken within 2 years prior to the Monash course commencement date
- the equivalent of a minimum of three standard full-time semesters (72 Monash credit points) at Australian VET diploma level or higher which must be taken within 2 years prior to the Monash course commencement date.

Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

English Proficiency Tests

The following English proficiency tests are accepted by Monash University:

- Academic IELTS (International English Language Testing System).
  For more information visit ielts.org
- Internet/Paper Based TOEFL (American Test of English as a Foreign Language).
  For more information visit ets.org
- Pearson Test of English (Academic). For more information visit pearsonpte.com
- Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE).
  For more information visit cambridgeenglish.org

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements, and will only accept English proficiency tests taken within 24 months prior to the Monash course commencement date.

Please note that all entry requirements for Monash University are subject to change.

English language requirements for research degrees

Research degree applicants must demonstrate successful completion of a course of tertiary studies of at least two years’ duration conducted entirely in English and involving formal assessment of written work, in a country where English is the official language. Evidence in the form of a letter or certificate issued by the university Registrar’s office will need to be provided. Studies must be completed within the five-year period prior to application.

For applications to the faculties of arts and law (for degrees by research), studies must be completed within the two year period prior to application. Applications where studies have been conducted entirely in English and involving formal assessment of written work in a country where English is one of two or more official languages of that country are considered on a case by case basis.

The World Factbook located at cia.gov/library/publications/resources/the-world-factbook lists the official languages of all countries.

Monash English Bridging (MEB) – for postgraduate

The Monash University English Language Centre (MUELC) offers MEB to students who have met the academic requirements for direct entry into Monash University postgraduate courses, but have narrowly missed the English language requirements.

Upon successful completion of MEB, students will gain the proficiency needed to succeed at Monash University and have guaranteed entry into selected university postgraduate courses.

To view MEB for postgraduate courses entry requirements visit

monashcollege.edu.au/english-language-services/english-language-courses/monash-english-bridging/bridging-entry-requirements

Please note MEB is not accepted for entry into all postgraduate courses. Entry requirements for Monash University are subject to change.
Scholarships

Monash University is committed to attracting academic high achievers and producing internationally competitive graduates.

Coursework scholarships
A variety of scholarships and bursaries are available for prospective and continuing coursework postgraduate students. The number of scholarship and bursary offers made in any one year varies. For full details on scholarships and bursaries available for coursework postgraduate students.

Research scholarships
The Australian Government’s Research Training Scheme covers your research course fees if you’re an Australian or New Zealand citizen or Australian permanent resident. There are various other scholarships and bursaries available to assist with other costs.

monash.edu/scholarships
Fees

All postgraduate coursework programs are offered as full-fee places. Students in these courses pay the full tuition cost of the course and must make the payment upfront each semester. Fee and duration quoted are for study at Australian campuses only. Fees are quoted in Australian dollars, and is the annual average fee per 48 credit points of full-time study in each course for 2016 unless otherwise stated. Fees are adjusted annually. Please see monash.edu/fees for updates.

Please contact Monash University Malaysia (mum.admissions@monash.edu) or Monash South Africa (inquiries@monash.ac.za) for more information on their offerings.

FEE-HELP loan

The FEE-HELP scheme provides an interest-free, income-contingent government loan facility for students. Australian citizens and holders of a permanent humanitarian visa are eligible for the FEE-HELP scheme. Eligible students wishing to fund part or all of their tuition fees through FEE-HELP must complete the loan request form by the relevant census date and provide a tax file number. A student can elect to pay a portion of fees directly to the University and the remaining debt will be registered as a loan through the Australian Taxation Office (ATO). Students will commence repaying any HELP loan through the ATO once their income reaches the minimum threshold for compulsory repayment. A loan for up to the full tuition fee charged for the course can be accessed, but there is a lifetime limit.

See the Monash University Fee-HELP website for details: monash.edu/enrolments/loans/domestic-full-fee.html.

For more information, contact Monash Connect at your campus or visit the Department of Education and Training.

Commonwealth Supported Places (CSPs)

For CSPs, units are grouped into three broad bands. The band in which the unit is located determines the student contribution amount for that unit. Usually, the units a student is required to enrol in to complete their course will each fall into the same band. The table outlines the annual student contribution amount for a full-time student who is enrolled in a standard full-time course where all units are in the same band. In a standard full-time year, students typically study 48 credit points.

Research Training Scheme (RTS)

Australian citizens, New Zealand citizens or Australian permanent residents undertaking a research degree at Monash University are granted a government-funded Research Training Scheme (RTS) place. Under this scheme, research students receive two full-time equivalent years of funding for a research master’s course and four years of full-time equivalent funding for doctoral studies. Under the RTS, it is a statutory requirement that all higher degree by research students provide details of previous enrolments in research programs to determine eligibility for RTS funding.
Admission and application

Before you apply
Use study.monash/courses to check:
- entry requirements
- extra documentation required, for example, details of relevant work experience
- fees
- closing dates
- when courses start.

Applying for postgraduate degrees by coursework

» Apply for coursework course: monash.edu/study/apply

Coursework programs
Applications for postgraduate coursework programs can be made online via monash.edu/study/apply
All applicants for coursework programs must meet the institutional English language requirement as outlined at: monash.edu/admissions/english-language-requirements.html

Applying for postgraduate degrees by research

» Apply for research course: monash.edu/migr/apply

PhD, Master of Philosophy, Master’s by Research, Professional Doctorate.
All research degree and scholarship applicants must apply using the online form at:
► monash.edu/migr/apply

Applicants intending to study at the Sunway campus (Malaysia) should access the form through the campus website at:
► monash.edu.my/research

For applications to Sunway campus, (Malaysia) a fee of MYR100 is payable to Monash University Malaysia.

When should I apply?
Research degree-only applications maybe submitted at any time of the year, but restrictions may apply to your course commencement date if you must complete any coursework as part of the degree. Applications for the university’s two research scholarships rounds close on 31 October and 31 May each year. Scholarship applicants will be notified of the outcome of their application approximately six to eight weeks after the closing date.

Step 1: Check your eligibility
Once you know the degree you are interested in, check your eligibility for the course and a scholarship.
► monash.edu/migr/apply/eligibility

Our scholarship rounds are very competitive. Most scholarships require the equivalent of a first-class honours degree from Monash University. You’re assessed for all scholarships and grants for which you are eligible when you apply.
Step 2: Find a supervisor and submit a research proposal

Research degree applications may only be submitted once you have obtained an invitation to apply from the faculty at which you will be enrolled.

In order to obtain an invitation you need to:
- complete an expression of interest and/or
- find a supervisor who agrees to supervise your research.

It may take you up to four weeks to obtain an invitation. You should initiate the process to obtain an invitation not less than four weeks prior to the date on which you expect to submit your application. Scholarship applicants are required to initiate this process no later than 30 April and 30 September for the mid-year and end of year rounds respectively.

Different faculties have different processes, so it is important that you read and follow the instructions that each faculty provides. This information is available at:
monash.edu/migr/apply/invitation

We encourage you to seek further information about the research expertise of academic staff through the websites and brochures of research centres, faculties, schools and departments.

Step 3: Apply online

Apply for entry into a research degree online at:
monash.edu/migr/apply

If you need assistance completing the form please check the guide to completing the online form at:
monash.edu.au/migr/apply/application/guide

You apply for our research degrees and scholarships online using the same application form.

Step 4: Your application is assessed

Once you have submitted your application it will be assessed and approved by the Monash University Institute of Graduate Research, the faculty and academic unit at which you will be enrolled. The duration of this process can vary but should take no longer than six weeks. If your application is successful, you will be sent an offer pack including:
- an offer letter
- an acceptance form and instructions
- registration and enrolment details.

Step 5: Accept your offer

Read your offer letter and offer pack carefully to know how to accept your offer and enrol in your course.

Step 6: Enrolment pack

After accepting your offer to join the Monash Research community, you must formally enrol. Details of the enrolment process you need to follow will be provided in your letter of offer. International research candidates complete their enrolment once they have arrived on campus.
